How your donations help:

Making sure that the writings and teachings of Rev. Weston D. Bailey remain affordable and available to all who are interested.

Offering personal spiritual guidance and counsel to FSSH members and friends worldwide.

Continuing our stewardship of the office, so that our members and the public may gather, study, meditate, and find inspiration.

Sending members to visit groups around the world — offering spiritual counseling and conducting classes and retreat programs to help our members more deeply practice the teachings and principles of the Ascended Masters of Love and Light.

Assisting FSSH in researching spirit attachment and influence:

This important art of healing, neglected and misunderstood by modern medicine and religion, is slowly being reconstituted and reapplied. A scientific study of spirit influence could lead us out of a state of denial and into a state of awareness by providing some very important answers.
